

## SPEC SHEET BPM Bike

Bring the high-intensity thrill of Indoor Cycling to your pool! BPM Aqua Bike is one of only two bikes in the market that allow the participant to adjust the resistance while spinning in the water, allowing for a legitimate, full-body, cycling experience.

The image is a composite. On the right, a swimmer in a blue swimsuit is shown from the waist down, pedaling an orange underwater bike. The scene is underwater, with light reflecting off the water's surface. On the left, a white rectangular overlay contains technical specifications and icons. At the top of the overlay is the Aquastrong logo. Below it, the text lists: MATERIAL (Inox AISI 316L), WEIGHT CAPACITY (350LBS), CYCLING INTENSITY (Adjustable), and DEPTH OF USE (3.5 - 4.5 Feet). At the bottom of the overlay is a grid of six icons with labels: ADJUSTABLE, DURABLE, TRAINING CERT, COMFORT, NON-SLIP, and STABLE. A small image of the yellow bike is also visible within the spec sheet area.

## PRODUCT INFO

- Unique in the world, elegant, innovative, and functional design: equipped with a polyethylene shell and stainless steel frame with oval outlines
- The brake system was studied by the R&D department to guarantee increased fluidity and durability
- A wide handlebar allows more positions and a better grip
- Resistive pedal in polyethylene, designed to increase the pedaling fluidity and strength
- The stability of the bike is ensured by the perfect balance between the front and rear axle, the new reinforced bases, and four suction cup feet
- The 74° saddle-handlebar angle ensures the best position during use, excluding horizontal saddle adjustments
- Wheels on the front base allow easy movement of equipment during surfacing and movement on pool deck
- 2-year limited manufacturer's warranty.

## Additional Perks

- **Four Color Choices.** White, Yellow, Lime, Blue
- **ABS™ Aqua Cycle Certification Training Coming Soon.** Instructors will be able to become certified to teach Aqua Body Strong™ Aqua Cycle. Combining the knowledge and experience of our Aqua Body Strong™ Advisors, which includes fitness trainers, coaches, and competitive athletes in multiple disciplines, we are creating the ultimate certification platform for water fitness bikes. Our ABS™ Teacher Training courses are safety-oriented, content-rich, and designed to ensure your instructors can teach to all fitness levels.

We are 100% committed to providing you with the highest quality water fitness products at the best price on the market. Contact us today at (949) 395-2878.
